To whom it may concern

It is my pleasure to heartily recommend Mr. Nidal Awartany as a Senior IT Professional.

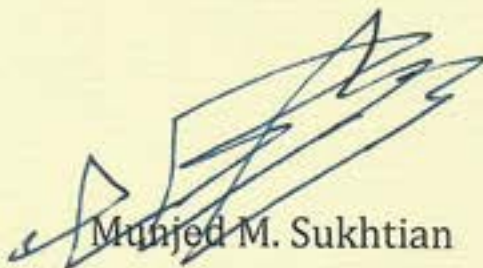

My name is Munjed Sukhtian, and I am the managing director of AlMunjed Group of companies in Jordan, Emirates, Turkey, and Canada, also, I serve as the chairman of United Pharmaceuticals Mfg. Co. based in Jordan.

Mr. Nidal Awartany is one individual I have worked with for 17 continuous years who uniquely stands out. He was the one who enabled the computer system in United Pharmaceuticals in the early '90s, and during his career, he transformed the company's infrastructure from a manual and discrete model to an automated and integrated model.

In addition to that, Mr. Nidal Awartany occupied the Chief Information Officer position of AlMunjed group of companies for around 4 years and was the executive responsible for the management, implementation of information & computer technologies across the group companies.

It is not just his managerial & technical skills that impressed me, Mr. Nidal Awartany was a delight to work with because of his optimistic attitude and creativity.

I am confident Mr. Nidal Awartany would be a passionate fit for any company. Not merely will he introduce the skills and experiences you are looking for in a person to cooperate with, but he will additionally become a precious asset and assist your company to develop efficiently.
